

OPEN SPACE TECHNOLOGY

...is a simple way to run
productive meetings, with five to
2000+ people, and a powerful
way to lead any kind of
organization, in everyday practice
and ongoing change.

Open Space runs on two fundamentals:
passion and **responsibility**.

Passion engages the people in the room.
Responsibility ensures things get done.

A focusing theme or question provides the framework for the event.

"The art of the question lies in saying just enough to evoke attention, while leaving sufficient open space for the imagination to run wild." – HarrisonOwen

The Law of Mobility:
If you find yourself in a situation where you are neither learning or contributing, move somewhere where you can.

Whoever comes
...is the right
people.

Whatever happens
...is the only thing
that would have.

When it starts
...is the right time.

When it's over

...*it's over.*
